

Computer and monitor sold separately.

Genie Pro

- > computer compatible, integrates the latest in auto focus
- > professional model ideal for work
- > adjustable color selection for easy reading
- > supports multiple computer resolutions

Now it's easier than ever to stay productive.

The Genie Pro combines a powerful magnifying viewer with your computer workstation. A split screen mode lets you view magnified materials and computer files simultaneously—or toggle between images using a button or optional foot pedal.

Genie Pro's auto focus camera brings print, photos, charts and graphs into crisp, clear focus instantly. The system also automatically adjusts for each application's optimum resolution. The system is compatible with most color monitors and is easy to setup.

Professional features help you accomplish tasks with ease:

- > Horizontal and vertical line markers
- > Adjustable split screen partitioning of camera and computer images
- > 24 foreground/background color combinations

Telesensory > With over 35 years of success, Telesensory continues to be the company people trust and depend on for the highest quality low vision solutions and dedicated personal customer service.

Features > Genie PRO

Magnification to 65X. Newsprint can be magnified to approximately 4" high on a 17" monitor.

Two ways to Focus:

- > Continuous auto focus
- > Manual focus override for optimum adjustment

Display > Used with multi-sync SVGA monitors and S-video monitors (sold separately)

Multiple Viewing Options for Different Needs:

Bright Negative Viewing Mode > uses white letters on a black background for maximum reading comfort.

Color Select Mode > lets you view reading materials in 24 different color combinations to accommodate specific vision needs.

Full Color Viewing Mode > offers high-quality color contrast for easy viewing of materials with photos and text.

Full Color Photo Mode > is an adjustable contrast setting ideal for viewing photos, illustrations or 3-dimensional objects in detail.

Professional Tools:

Split Screen Mode > simultaneously displays the magnified image and the computer screen — or lets you toggle between the two.

Camera and Computer Image Alignment > allows you to line up the camera picture with the computer display while in split screen mode.

Line Marker/Shadow Mask > options help you focus on one area or line of text at a time.

Reading Table > a large non-glare, locking platform for reading oversized books.

Money-back Guarantee > Telesensory products are backed by a 30 day money-back guarantee (less shipping) and a two year manufacturer's limited warranty against defects in material and workmanship.

Information and Sales > Representatives are available Monday through Friday from 7 am to 4 pm PST to answer questions and take your orders.
