

## Aladdin Ultra Series\*

- > simple, easy to use controls
- > 17" monitor for greater viewing area
- > negative picture reduces glare
- > industry's brightest image for highest contrast

\* Aladdin Ultra and Ultra Pro 75

Now coming to the big screen: the daily newspaper, your favorite magazines, family photographs and more. The Aladdin Ultra and Ultra Pro 75 bring the joy back to reading and to your everyday activities—with magnification up to 60X and a large 17" screen. Imagine balancing your checkbook in privacy, reading recipes without help, even viewing medicine bottles with ease.

Easy-to-use controls let you adjust text size and focus. Margin controls let you read columns of text more easily, and a high-contrast screen reduces eye strain. With the Ultra Pro 75, enjoy shadow masking to highlight specific parts of the screen, useful for complex documents like spreadsheets, bus schedules and forms, plus single line markers that help keep your place.

Different viewing modes and features are useful for a range of activities:

- > White text on a black background provides maximum reading comfort.
- > Photo mode brings snapshots, illustrations and objects into sharp focus.
- > The large platform accommodates newspapers, maps & oversize books.

**Telesensory** > is the leading provider of magnification systems for people with low vision. We have restored independent living to more than 200,000 satisfied customers.

For more information or a free no-obligation demonstration, call **1-800-804-8004**.

## Features > Aladdin Ultra & Ultra Pro 75

Magnification from 5.4X to 60X. Newsprint can be magnified to over 4" high.

### Easy-to-Use Controls:

- > Size adjustment lever
- > Focus control knob
- > Picture control lever
- > Shadow mask/line marker knob\*

**Display** > Black & White 17" monitor, 16.5" viewing area

### Multiple Viewing Options for Different Needs:

**Bright Negative Viewing Mode** > uses white letters on a black background for maximum reading comfort

**Bright Positive Viewing Mode** > offers high-quality contrast for easy viewing of materials with poor quality, such as newspapers.

**Photo Viewing Mode** > is a medium contrast setting ideal for viewing photos, illustrations or 3-dimensional objects, such as a prescription bottle, in detail.

**Line Marker/Shadow Mask\*** > options help you focus on one area or line of text at a time.

**Reading Table** > a large non-glare, platform for reading oversized books that moves freely in any direction—or locks into place. Adjustable margin stops let you view columns easily.

**Money-back Guarantee** > Telesensory products are backed by a 30 day money-back guarantee (less shipping) and a two year manufacturer's limited warranty against defects in material and workmanship.

**Information and Sales** > Representatives are available Monday through Friday from 7 am to 4 pm PST to answer questions and take your orders.

\* Ultra Pro 75 only.
